Exam Results 2024

We are thrilled to announce that it has been another exceptional year of academic achievement and successful university placements. This is particularly impressive as it comes with our first cohort graduating from the *International Baccalaureate (IB)* after it was first introduced in September 2022, a whole school transition from the *A-Levels*, which was the main and only option prior to the change. These same IB students achieved an average total score of **32.13**, which is approximately two points higher than the global average of 30.3. A fantastic achievement for all.

For those students who undertook the A-Levels, **they all achieved the results they needed to secure a place at their university of choice.**

It was another successful year for our IGCSE results too with an average passing rate of **87.7%** across all subjects and **100%** pass rate in English Literature and French. **97%** in Science and **94%** in Maths. Overall, of the 270 grades awarded, **88.5%** were **grades A* to C** and **37.8%** were **A or A***

6th Form

32 IB candidates	Grade 4-7	Grade 6 or 7
191 grades awarded	91%	40%
6 A-Level candidates	100% achieved the results to a secure a place at university	

IGCSE

35 candidates	English Literature	French	Science	Maths	A*-C	A* or A
270 grades awarded	100% pass	100% pass	97% pass	94% pass	89%	38%
